As on the previous day, report, rumor and conjecture dealt largely with the physical condition of Mr. Harriman and the possible effect of his reported ill health upon the much discussed plans of the Harriman roads. The crop news was neither good nor bad.
Union Pacific, Southern Pacific, Canadian Pacific, New York Central, Illinois Central and Chicago & Northwestern all fell a point or more at the opening.

Atchison was one of the few active stocks to resist the selling pressure. Re-

# GRAIN AND PROVISIONS

Chicago, Aug. 19.—The action of the wheat market today was the reverse of wheat market today was the reverse of that of the previous session, sentiment in the pit being exceedingly bearish, with the exception of a short period at the opening. The feature of the trading was the selling of the September and December options by the elevator interests, whose purchases yesterday caused the 3c bulge in the nearby deliveries. The offerings from this source were so liberal that traders forgot all about the congestion in the September option and sold without stint throughout the greater part of the day.

The situation in the northwest further

The situation in the northwest further aggravated the selling fever. First consignments of new wheat arrived at Minneapolis today. The arrivals consisted of eight carloads and the price ranged from \$1.04 for velvet chaff to \$1.25 for No. 1 northern. Elevator interests there reported that the yield for Minnesota and the Dakotas will be heavy. Dispatches from Winnipeg also claimed that the yield in western Canada would be little short of phenomenal. These dispatches caused a severe slump in the northwestern markets, particularly at Minneapolis, and, in turn, depressed the market here.

The market was bearishly affected early in the day by the poor response made by foreign markets to the upturn here yesterday, Liverpool coming 3/d lower to 3/d higher. The range on the September delivery for the day was between \$1.00% and for December 96%c and 98%c.

The market closed heavy, with prices about 4/c above the low mark.

Private reports, claiming that a general rain was working eastward from the Rocky mountains through southwest Miss. The situation in the northwest further
